

Fund Manager

UK Equities

Edinburgh

With an international client base, our client is a highly regarded asset management business with a range of corporate and retail clients. Its skilled team of fund managers/analysts has achieved a reputation for strong performance, and the position offers excellent prospects for salary, bonus and share incentives.

As part of its strategic development it seeks to appoint a UK Fund Manager as a key member of its investment team. This will involve fund management responsibilities as well as contributing investment analysis. The role will also involve maintaining relationships with existing clients as well as presenting to prospective clients. The successful candidate will possess:-

- At least five years' fund management experience in a UK or pan-European team
- An excellent record of professional and academic achievement, ideally a good degree in a numerate discipline

- A professional qualification such as CFA or CA/ACA would be advantageous
- Good analytical discipline with well developed communication and presentational skills
- And will be a strong team player used to working within a collegiate environment

This is a career opportunity for an exceptional individual to join a successful team of investment professionals.

Additional entry level opportunity

In addition, our client intends to appoint a Trainee Fund Manager. With a CA or other numerate qualification, you will be seeking to commit to a career in fund management.

Academic excellence and well-developed communication skills are pre-requisites for the role.
